Projects

E-commerce Website (HTML, CSS, JavaScript)

- Developed a responsive e-commerce website with product listing, shopping cart, and checkout flow.
- Implemented dynamic features like add-to-cart, search bar, and product filters using JavaScript.
- Designed user-friendly UI with HTML5 and CSS3 ensuring cross-browser compatibility.

Meesho Clone (HTML, CSS, JavaScript)

- Built a front-end clone of Meesho with product catalog and category pages.
- Used CSS for styling and responsive layouts to mimic the original design.
- Added interactive features like hover effects, navigation menus, and product detail pages.
